PC-35A

DTM DIRECT TO METAL URETHANE PRIMER ACTIVATOR

PC-35A DTM Direct To Metal Urethane Primer Activator is a premium quality, high build, two component direct to metal primer surfacer activator. This ultra high build primer covers deep sand scratches that can be applied by roller or sprayed. Primer Activator can be applied directly over bare metal, offering outstanding adhesion and easy sanding, with no shrinkage. This 4:1 Primer Activator must be used with PC-35 DTM Direct to Metal Urethane Primer.
